

- Mission-Based Health Care
  - The University of Cincinnati will work in collaboration with community stakeholders to develop a health workforce that increases access to health care and the opportunity for optimal health for all in the local urban community.
  - The University of Cincinnati will produce students who are culturally competent to ensure the local health care workforce have the background, qualities, and skills to serve community needs and decrease health disparities in the local urban community.
  - The University of Cincinnati will increase the educational opportunity for talented and diverse students to be recruited in order to graduate a health care workforce that reflects the diversity of the population in the local urban community.
